

Multi trap 25

Catalog number: 120 000

EAN: 8606008730479

Application

- Prevents return of unpleasant odor from the sewage system with double protection, water seal and mechanical seal – silicone membrane

Technical information

- Material: PP, TPE, silicone
- Dimensions: Ø126x60mm
- Weight: 82,9g

Standard

SRPS EN 1253

Logistic information

- Package: 20 pieces
- Package dimensions: 325x265x265mm
- Package weight: 2,5kg

Specification

- Water seal is 25mm high
- If the water from the multi trap evaporates the seal is still secured by a silicone membrane
- Silicone membrane is extremely sensitive to low pressure, but also handles high pressure as well because of the innovative design
- Silicone membrane is resistant to temperatures from -50 °C to 150 °C
- Installation in inox grate frame or square extension
- Sealed joint between inox frame/square extension and multi trap with TPE seal which is placed on the multi trap in plastic injection moulding process which prevents its twisting or falling off
- TPE seal is resistant to temperatures from -50 °C to 120 °C, UV rays, ozone and aging
- Easy installation and removal of the multi trap with the handle
- Turning the bucket to the left disassembles and allows easy maintenance. Turning the bucket to the right locks the multi trap.
- Odor impermeability of at least 400Pa
